letter from an officer of the revenue steamer

Bush, dated Unalaska, Alaska, September 5,

"The Bering sea season is drawing to a close. Few scaling vessels are seen now, a stray one today laid before the delegates to the fourth being boarded occasionally. The latest seizure | convention of the Irish National League of was made by the Mohican. The British steamer America by John P. Sutton, the secretary Otto was boarded after having been in the sea nine days. She was fitted out at Victoria and had several newspaper correspondents aboard. Her object was to enter nine days. She was fitted out at Victoria and had several newspaper correspondents aboard. Her object was to enter Bering sea and hunt seals, endeavoring to keep out of sight of government vessels. The Mohican seized her on account of some error in her papers. The Otto left for Victoria September 4. This makes the fourth seizure this season. The Corwin seized two vessels and the Rush and Mohican one each. Most of the Rush and Mohican one each. Most of the sealing fleet have been boarded by the government ships, but about a dozen schooners have been able to evade them. The Rush has been cruising actively and has boarded twenty vessels. The Corwin left this morning for Sitka, where her officers have been subpensed as witnesses in the case of seizures subpensed by factionists in this country, encouraged by Mr. Parnell and his colleagues,

The quartz was loose from the granite. They took seven samples. the granite. The quartz was loose from natural causes. They took seven samples, one of quartz, in places, and some of the loose. The samples showed a trace of gold less than \$1 per ton. He went out again on August 26, when Mr. Spaulding and Mr. Truesdell were with him, and examined another pit, from which sample showed less than \$1 per ton—a trace. which sample showed less than \$1 per ton—a trace. A sample from another hole showed no gold. They then panned, finding no gold in one and one \$1.42 per ton and others a trifle of gold. He then described several other visits when he got \$1.60 and other amounts per ton. From the assays made he would say that no value as to precious metal had been shown. A speculator might give \$200 to \$300 for the prospect. He had also examined the Shoemaker property within the past two weeks and described his examinations of the pits.

The sample from dump showed not over 1/2 of 1 per cent and from pit B only traces; one sample from pit C showed \$2.40 per ton. For mining purposes the land was of no value.

NO REASON TO EXPECT GREAT GOLD.

NO REASON TO EXPECT GREAT GOLD. On cross-examination witness said he had further west than Dr. Kempster and Mr. Russ have charge of. There was no reason to expect that the veins increase in value as you go down. He had known of prospects having been sold in Georgia, but he knew of no sales in this

By Judge Wilson—There is no actual evidence of gold in the specimens examined, except the presence of the gold itself. The presence of copper, lead or silver in ore would warrant an expenditure in the development of the property. Ordinarily, quartz without these mineral woulds hardly warrant such an expenditure. A prospect, such as he had in mind, is a number of pits such which might but not precessarily so yield sunk, which might, but not necessarily so, yield a gold-bearing quartz on further development, or which might lead to the belief of a paying
